## EXPERIENCE

### Backend Developer at Stoild

July 2023 -Aug 2023

- As a backend development intern, I successfully created two projects using MongoDB, Node.js, and Express, showcasing my skills in building scalable and efficient web applications.

## PROJECTS

### NFT MarketPlace

#### MarketPlace for exchange of NFT

Aug 2023

- Developed a cutting-edge NFT marketplace using **ReactJS**, **Solidity**, **Alchemy**, and **IPFS** technologies.
- Designed and implemented smart contracts using **Solidity**, enabling secure and transparent transactions for NFT trading.
- Empowered users to effortlessly register their unique NFTs on the platform, facilitating a streamlined process for listing and enabling seamless peer-to-peer sales transactions.

### Airbnb

#### Travel booking App

Jun 2023

- Travel booking App where many places can be browsed and get information about places.
- React is used for Frontend, Express used for creating Backend and MongoDB will be used for creating database.

### FundMed

#### Website for Fundraising

Jan 2023

- This project has authentication, users can raise funds and donate, live covid tracker, integrated **Paypal** and **RazorPay** for payments.
- Created **Frontend** using **HTML**, **CSS**, **JavaScript**, **React JS**
- 5 key features: verified resources; informed about camps; fundraising

### De-drive

#### Decentralized Google Drive

Dec 2022

- Build drive where can share photos to other persons using decentralized Technology.
- Solidity Smart Contracts** are written and **IPFS** linked to uploading photos for Frontend React Js is used.
- Track of sharing the photos to accounts. Metamask is implemented.

## EDUCATION

### B.Tech in Information Technology and MBA

#### IIIT Gwalior, India

2021-2026

7.71 CGPA

### Class-XII,CBSE

#### Eden International School, India

2019-2020

80%

### Class-X,RBSE

#### Adarsh Public School, India

2017-2018

90%

## SKILLS

- Languages  
C/C++ , Javascript , Python , SQL , Bash
- Frontend  
ReactJS , Redux , NextJS , MaterialUI
- Backend  
NodeJS , ExpressJS
- Database  
MongoDB , MySQL , Mongoose
- Blockchain  
Solidity , Web3 , Truffle , IPFS , Ganache
- Cloud & Hosting  
Google Cloud Platform , Firebase , Heroku
- Tools  
Git , GitHub , Postman , Figma

## ACHIEVEMENTS

- Global Rank 159/15k** on CodeChef Starters
- Solved 350+ Problems** across all DSA Platforms

## POSITION OF RESPONSIBILITY

---

**Executive Member**

@ E-Cell , IIITM Gwalior

---

**Member**

@ Rotaract club , IIITM Gwalior

---

## CERTIFICATIONS

---

- Completed Web Development Bootcamp By Dr. Angela Yu .
- Solidity Ethereum in React By Filip Jerega .
