Work Overview

Work Done by Aditya Bhate during his time in Provoke Developer

NAME: Aditya Bhate
MOBILE NO: 9325773212
JOINING DATE: 1/04/2023
END DATE: 16/05/2023

Created a feature-rich video conferencing app for Neatskills.tech. The app has the capacity to hold multiple participants at once and includes features such as a whiteboard. It has all the capabilities of Google Meet with additional features to enhance the user experience.

Hosted this system on Linode and Deployed a testing Frontend on Vercel

Create the Course Upload Page and functionality. Admins can Select from the available course, then select available modules from that course and upload content for that specified Module.
Added Animations, Cleaned up the UI, and connected it to the Firebase for Storing Videos and Updating the specified Document with the Downloadable Link

Changes Made to these files: → **pages/upload-video.js**

Create a Video Streaming Feature from Firebase Storage to Course Page. Added Video Control options to the video Component

Changes Made to these files: → **pages/course-video.js**

Made the "why" Section on the Home page. Clean up the UI and made the Component Mobile responsive

Changes Made to these files: → **components/why.js**

Cleaned Up some UI in the After Log Page

Changes Made to these files: → **pages/afterlog.js**

Started Working on Chat Feature, But was assigned to someone else.
